

Come and grow with us!

October Update

As the growing season is near completion, remember all gardens are to be continued to be kept up (keep in mind this is also a condition for renewal for next season).. please remove all weeds and plant waste prior to the active growing season ending, this will also lessen the work for next spring.

If you are not going to continue with the Garden next season (2021) please contact us, as soon as possible, so we can reallocate your plot. We have had a waitlist most of this summer and would like to have all plots reassigned prior to 2021 registration.

In-kind hours - We currently need the pathways cut in addition to other jobs, If you would like to fulfill your in-kind hours please contact either Peter (604-726-4687) or Denys (604-782-0337). There will be a work party in the next few weeks - please stay tuned.....

We are hoping to reconcile all of our outstanding accounts - if you are still needing to forward money to the Garden for soil please either give it to **Peter Price, Denys or Vic** OR e-transfer it to garden@pmcg.ca.

Please continue to send all correspondence to garden@pmcg.ca including your in-kind hours. **Please do not use pennygeoff@telus.net**, as this email address is being closed soon.

Thank You
